### Import Restrictions Imposed on Certain Archaeological Material From Belize

**AGENCY:** U.S. Customs and Border Protection, Department of Homeland Security; Department of the Treasury.

**ACTION:** Final rule.

**SUMMARY:** This final rule amends the U.S. Customs and Border Protection (CBP) regulations to reflect the imposition of import restrictions on certain archaeological material from Belize. These restrictions are being imposed pursuant to an agreement between the United States and Belize that has been entered into under the authority of the Convention on Cultural Property Implementation Act in accordance with the 1970 United Nations Educational, Scientific and Cultural Organization (UNESCO) Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property. The final rule amends CBP regulations by adding Belize to the list of countries for which a bilateral agreement has been entered into for imposing cultural property import restrictions. The final rule also contains the designated list that describes the types of archaeological material to which the restrictions apply.

**DATES:** *Effective Date:* March 5, 2013.

**FOR FURTHER INFORMATION CONTACT:** For legal aspects, George Frederick McCray, Chief, Cargo Security, Carriers and Restricted Merchandise Branch, Regulations and Rulings, Office of International Trade, (202) 325-0082. For operational aspects: Virginia McPherson, Chief, Interagency Requirements Branch, Trade Policy and Programs, Office of International Trade, (202) 863-6563.

**SUPPLEMENTARY INFORMATION:**

## Background

The value of cultural property is immeasurable. Such items often constitute the very essence of a society and convey important information concerning a people's origin, history, and traditional setting. The importance and popularity of such items regrettably makes them targets of theft, encourages clandestine looting of archaeological sites, and results in their illegal export and import.

The United States shares in the international concern for the need to protect endangered cultural property. The appearance in the United States of stolen or illegally exported artifacts from other countries where there has been pillage has, on occasion, strained our foreign and cultural relations. This situation, combined with the concerns of museum, archaeological, and scholarly communities, was recognized by the President and Congress. It became apparent that it was in the national interest for the United States to join with other countries to control illegal trafficking of such articles in international commerce.

The United States joined international efforts and actively participated in deliberations resulting in the 1970 United Nations Educational, Scientific and Cultural Organization (UNESCO) Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property (823 U.N.T.S. 231 (1972)). U.S. acceptance of the 1970 UNESCO Convention was codified into U.S. law as the "Convention on Cultural Property Implementation Act" (Pub. L. 97-446, 19 U.S.C. 2601 *et seq.*) (the Act). This was done to promote U.S. leadership in achieving greater international cooperation towards preserving cultural treasures that are of importance to the nations from where they originate and contribute to greater international understanding of our common heritage.

Since the Act entered into force, import restrictions have been imposed on the archaeological materials of a number of State Parties to the 1970 UNESCO Convention. These restrictions have been imposed as a result of requests for protection received from those nations. More information on import restrictions can be found on the Cultural Property Protection Web site (<http://exchanges.state.gov/heritage/culprop.html>).

This document announces that import restrictions are now being imposed on certain archaeological material from Belize.

## Determinations

Under 19 U.S.C. 2602(a)(1), the United States must make certain determinations before entering into an agreement to impose import restrictions under 19 U.S.C. 2602(a)(2). On September 19, 2012, the Assistant Secretary for Educational and Cultural Affairs, U.S. Department of State, made the determinations required under the statute with respect to certain archaeological material originating in Belize that are described in the designated list set forth below in this document. These determinations include the following: (1) That the cultural patrimony of Belize is in jeopardy from the pillage of archaeological material originating in Belize from approximately 9000 B.C. up to 250 years old representing the Pre-Columbian era through the Early and Late Colonial Periods (19 U.S.C. 2602(a)(1)(A)); (2) that the Government of Belize has taken measures consistent with the Convention to protect its cultural patrimony (19 U.S.C. 2602(a)(1)(B)); (3) that import restrictions imposed by the United States would be of substantial benefit in deterring a serious situation of pillage, and remedies less drastic are not available (19 U.S.C. 2602(a)(1)(C)); and (4) that the application of import restrictions as set forth in this final rule is consistent with the general interests of the international community in the interchange of cultural property among nations for scientific, cultural, and educational purposes (19 U.S.C. 2602(a)(1)(D)). The Assistant Secretary also found that the material described in the determinations meet the statutory definitions of "archaeological material of the state party" (19 U.S.C. 2601(2)).

## The Agreement

On February 27, 2013, the United States and Belize entered into a bilateral agreement pursuant to the provisions of 19 U.S.C. 2602(a)(2). The agreement enables the promulgation of import restrictions on categories of archaeological material representing Belize's cultural heritage that is at least 250 years old, dating from the Pre-Ceramic (from approximately 9000 B.C.), Pre-Classic, Classic, and Post-Classic Periods of the Pre-Columbian era through the Early and Late Colonial Periods. A list of the categories of archaeological material subject to the import restrictions is set forth later in this document.

**Restrictions and Amendment to the Regulations**

In accordance with the Agreement, importation of material designated below is subject to the restrictions of 19 U.S.C. 2606 and § 12.104g(a) of the U.S. Customs and Border Protection (CBP) regulations (19 CFR 12.104g(a)) and will be restricted from entry into the United States unless the conditions set forth in 19 U.S.C. 2606 and § 12.104c of the CBP regulations (19 CFR 12.104c) are met. CBP is amending § 12.104g(a) of the CBP regulations (19 CFR 12.104g(a)) to indicate that these import restrictions have been imposed.

**Designated List of Archaeological Material of Belize**

The bilateral agreement between the United States and Belize includes, but is not limited to, the categories of objects described in the designated list set forth below. Any dimensions listed are approximations and the import restrictions include complete examples of objects and fragments thereof. **SUPPLEMENTARY INFORMATION:** Jefferson Parish has requested a temporary deviation from the operating schedule for the Bascule Span Bridge across the Harvey Canal Route, Intracoastal Waterway, mile 2.8 at New Orleans, Jefferson Parish, Louisiana. The bridge has a vertical clearance of 45 feet above mean high water in the closed-to-navigation position and unlimited in the open-to-navigation position. Vessels requiring a clearance of less than 45 feet may transit beneath the bridge during maintenance operations.

In accordance with 33 CFR 117.451(a), the bridge currently opens on signal for the passage of vessels; except that, from 6:30 a.m. to 8:30 a.m. and from 3:45 p.m. to 5:45 p.m. Monday through Friday except holidays, the draw need not be opened for the passage of vessels. This deviation allows the bridge to remain closed to navigation from 6 a.m. on Monday, March 18, 2013, until 6 a.m. on Monday, March 25, 2013. At all other times, the bridge will open on signal for the passage of vessels in accordance with 33 CFR 117.451(a).

The closure is necessary in order to change out the four drive panels for the motors that operate the bridge. This maintenance is essential for the continued operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists mainly of tugs with tows with some commercial fishing vessels and recreational craft. Coordination between the Coast Guard and the waterway users determined that there should not be any significant effects on these vessels. The bridge will be unable to open during these repairs; however, an alternate route is available via the GIWW (Algiers Alternate Route).

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 21, 2013.
