

Supplemental Table 1. Comparison of the Work Setting of respondents to the Repatriation Survey 2015 and the Needs Assessment Survey 2010 ( $n = 3,093$ ). The Percentage of Total Respondents for the Repatriation Survey is calculated out of the total respondents ( $n = 1,905$ ). Significantly different percentages between the two surveys are highlighted based on comparison of z-score transformed percentages with a 90% confidence interval.

Work Setting	Repatriation Survey, 2015	Needs Assessment Survey 2010
	Percentage of Total Respondents	Percentage of Total Respondents
Academic, Community College	2.7	2.4
Academic, 4-year institution without a graduate program	8.6	6.8
Academic, 4-year institution with a graduate program	31.6	26.4
CRM, Cultural Resources Consulting Firm	12.0	12.1
CRM, Environmental or Engineering Consulting Firm	4.3	5.2
CRM, Museum or University-based Consulting Organization	2.0	1.9
Education (K-12)	.1	.5
Government, Federal	7.7	8.8
Government, Tribal	.8	.7
Government, State	4.1	3.3
Government, Local	.4	.6
Museum	3.9	4.1
Private Foundation	1.4	1.2
Avocational	.6	.7
Other	4.1	5.8
Student	17.6	13.9
Retired	8.6	5.5
<b>Total*</b>	<b>110.5</b>	<b>99.9</b>
*The total for the Repatriation Survey is more than 100% because respondents chose multiple categories.		

Supplemental Table 2. Year of Degree of the respondents by decade. All percentages are calculated out of the total respondents ( $n = 1,905$ ).

Year of Degree	Percentage of Respondents
1950–1960	.2
1960–1970	2.6
1970–1980	9.6
1980–1990	14.0
1990–2000	17.2
2000–2010	28.1
2010–present	28.0

Supplemental Table 3. Distribution of Work Regions of the respondents. Respondents were able to choose multiple categories. All percentages are calculated out of the total respondents ( $n = 1,905$ ).

Region	Percentage of Respondents
United States	81.5
Canada	7.0
Arctic	3.6
Caribbean	4.0
Mesoamerica	14.9
Central America	3.1
South America	9.8
Oceania	3.4
East Asia	2.8
South Asia	1.0
Southeast Asia	1.9
Central Asia	1.3
West Asia	4.9
Europe	13.0
Northern Africa	2.6
Sub-Saharan Africa	4.3
Other	2.2

Supplemental Table 4. Simplified distribution of Work Regions. All percentages are calculated out of the total respondents ( $n = 1,905$ ).

Work Region	Percentage of Respondents
United States	81.5
Canada & Arctic	10.6
Latin America	31.9
Asia & Oceania	15.4
Europe	13.0
Africa	6.9
Other	2.2

Supplemental Table 5. Distribution of experience in Repatriation-related Activities. These categories are aggregated from several possible sub-categories in the survey, and reported here is the percentage of respondents who answered that they had participated in at least one of the sub-categories. All percentages are calculated out of the total respondents ( $n = 1,905$ ).

Repatriation-related Activities	Percentage of Respondents
Not Applicable	22.9
Consultation	61.4
Drafting	28.2
Field or Collections Research	57.7
Other	30.5

Supplemental Table 6. Responses to Question 10 by Year of Degree, aggregated by decade. The cells highlighted in gray show the most common response to the question within each demographic category, and highlighted cells represent the most common response based on comparison of z-score transformed percentages with a 90% confidence interval.

	<b><i>Q. 10 The NAGPRA regulation on the Disposition of Culturally Unidentifiable Human Remains (43 C.F.R. § 10.11) outlines a process by which human remains that have no lineal descendant and have not been culturally affiliated may be transferred to certain Indian tribes and Native Hawaiian organizations. In general, how do you think the regulation has affected archaeological research?</i></b>						
	Counts	No Opinion (%)	Little or no effect (%)	Mixed results (%)	Negative effect (%)	Positive effect (%)	No Response (%)
1950–1960	4	25.0	0	0	75.0	0	0
1960–1970	50	14.0	8.0	16.0	60.0	0	2.0
1970–1980	183	8.7	4.4	25.7	57.9	2.2	1.1
