EMIL W. HAURY AWARD CREATED

An award honoring Dr. Emil W. Haury, Professor Emeritus at the University of Arizona has been created by the Southwest Parks and Monuments Association (SPMA) located in Globe, Arizona.

"The Emil W. Haury Award was created to recognize outstanding contributions to scientific research in the national parks and monuments in the Southwest," said Luis A. Gastellum, Chairman of the SPMA Board of Directors.

The award will recognize excellence in a specific research project or outstanding contribution by an individual to scientific research in the parks over a period of time. Serious consideration will be given not only to the quality of the scientific contribution but also to the degree that the research created a greater public understanding of the cultural and natural resources of the national parks. A $1,000 cash prize will accompany the award.

A selection committee composed of the Board of Directors of SPMA and prominent individuals involved in scientific research in the Southwest will review nominations annually.

Haury, for many years director of the Arizona State Museum and head of the Department of Anthropology at the University of Arizona, is widely considered to be the dean of southwestern archaeologists. Dr. Haury retired from the Board of Directors of SPMA on November 18, having served the organization continuously since 1938. His archeological excavations at Snaketown, a major site northwest of Casa Grande, were instrumental in defining the prehistoric Hohokam culture.

Haury has received numerous honors including a Guggenheim Fellowship and has served on the National Park Advisory Board and with the National Science Foundation.

SPMA was founded in 1938 to aid and promote the educational scientific activities of the National Park Service. As a nonprofit organization, authorized by Congress, it makes interpretive material available to park visitors by sale or free distribution. All net proceeds support the interpretive and research programs of the National Park Service.

SPMA currently serves 43 national parks and monuments in nine states. Currently located in Globe, SPMA will be relocating to Tucson in April or May of 1984.

ARCHEOLOGY UNIT FORMED IN THE AAA

Barbara Stark

Reorganization was overwhelmingly approved by the American Anthropological Association (AAA) membership, which means that archeologists will have the option of belonging to an Archeology Unit within it or to a General Unit. In addition to participation in the AAA as general members, members of the Archeology Unit can vote for archeology representatives to the AAA Board. The new Unit should facilitate communication within AAA regarding archeological concerns. Richard Ford chairs the Organizing Committee for the Unit. Committee members are Richard Klein, Linda Cordell, Don Dumond, Dee Ann Story, and Jerry Milanich (with Mel Aikens and Barbara Stark ex officio).

At an open meeting for archeologists at the AAA meetings in Chicago, about 80 people attended and almost all expressed interest in belonging to the Archeology Unit. Several aims for the Unit were discussed: 1) to provide a broad scholarly forum devoted to both Old and New World archeology, thus providing some complementarity to SAA; 2) to strengthen use of the American Anthropologist by archeologists; and 3) to provide advice about international archeological ethical problems to AAA. The American Anthropologist will serve as the journal for the Unit, and Unit news will be carried by the Anthropology Newsletter. No new

AAA dues will be required since a portion of the current dues will go to support the Unit. Also at the meeting, Mel Aikens, Editor for Archeology, discussed current policies and plans for AA.

At present, Ford's committee is completing draft By-Laws for the Unit. It is envisioned as headed by an Executive Committee, some members of which would represent the Unit on the AAA Board. The Editor for Archeology of AA and the archeology representative on the annual program committee would be members of the Executive Committee, too. Once at each annual AAA meeting, the Unit would have its own brief meeting for any Unit business, but especially to provide an opportunity for discussion among archeologists.

Ronald F. Lee Graduate Research Fellowships Established

The Ronald F. Lee Graduate Research Fellowships has been established by the Eastern National Park and Monument Association, a nonprofit educational-service institution cooperating with the National Park Service in support of its educational and interpretive programs.

The $5,000 fellowships will be awarded to graduate students whose doctoral theses deal with the conservation, geological, archeological, architectural, ecological, historical, biological, environmental, scientific, and preservation interests of the national parks. The award money may be used for travel and support during the period of research and writing leading to the presentation of the doctoral thesis.

Applicants must present a comprehensive statement on their thesis proposal, as approved by their thesis advisor(s), together with a research and writing schedule.

Letters and applications for 1985 should be sent no later than August 1, 1984, to F. L. Rath, Jr., Executive Director, Eastern National Park and Monument Association P.O. Box 671, Cooperstown, New York 13326. All applications will be reviewed early in the fall by Eastern National Research Committee headed by Edwin Bearss, Chief Historian, National Park Service. Depending on availability of funds, one or more proposals will be recommended to the board of directors of EN. The fellowship will be awarded by the board in mid-November and funds will be available immediately upon notification.

SOCIETY FOR AMERICAN ARCHAEOLOGY
49TH ANNUAL MEETING
Preliminary Program

Wednesday Evening, April 11

RECEPTION FOR NEW MEMBERS
Reception hosted by present and past Society officers for new members and members attending their first annual meeting.

Thursday Morning, April 12

1 Symposium: REGIONAL ORGANIZATION OF HUNTER-GATHERER POPULATIONS
Organizer: Cynthia Irwin-Williams
Participants: C. Irwin-Williams; R. L. Bettinger; G. L. Fenenga; W. Hildebrandt; L. C. Peppin; S. Sims; B. J. Vierra; J. E. Yellen
Discussant: D. H. Thomas

2 General Session: ARCHAEOLOGICAL RESEARCH IN THE MEDITERRANEAN, THE NEAR EAST, ASIA, AFRICA AND EUROPE
Chairperson: H. L. Dibble
Participants: S. A. Brandt; H. L. Dibble; S. E. Falconer; B. E. Hendphill and J. R. Lukacs; A. T. Moore; D. I. Olszewski; A. H. Simmons and G. O. Rollefson; B. A. Vought; J. M. Erlandson; A. J. Jelinek; A. Montet-White; N. Russell

3 General Session: FAUNAL ANALYSIS, ZOOARCHAEOLOGY, ETHNOBOTANY AND HUMAN DIET
Chairperson: R. L. Lyman
Participants: M. J. Adair; P. G. Chase; D. Giff Gonzalez; Chuan-Kun Ho; D. R. Huelsbeck; R. L. Lyman; M. L. Moss and J. M. Erlandson; S. J. Olson; O. Soffer; C. R. Szuter; T. Zontek; M. J. DeNiro and C. A. Hastorf; G. C. Wessen; M. J. Deniro and C. A. Hastorf; L. E. Spickard

4 Symposium: EARLY ADAPTATIONS IN HIGH ANDEAN ENVIRONMENTS
Organizers: John W. Rick and Barbara R. Bocek
Participants: M. L. Malpass; J. R. Rick; P. M. Hayashida; B. R. Brock; D. M. Pearsall; G. M. Oseki; K. M. Moore; T. F. Lynch
Discussant: K. V. Flannery

General Session: ARCHAEOLOGICAL RESEARCH IN SOUTHERN AMERICA
Chairperson: R. A. Benfer
Participants: R. A. Benfer; L. A. Borrero; K. A. Cleland and I. Shimada; C. L. Costin

(continued on page 3)
(5) General Session: ARCHAEOLOGICAL RESEARCH IN THE EASTERN UNITED STATES
Chairperson: W. Dancey
Participants: E. Boesch and A-M Cantwell; W. S. Dancey; J. G. Brashear; R. D. Lovis; R. V. Riordan; J. F. Scarry and C. Payne; G. Shapiro; A. Pickman, E. J. Boesch and H. D. Winters

(6) Symposium: BEYOND INVENTORY: PROGRESSING WITH CRM
Organizers: James T. Rock and Joseph W. Hopkins III
Participants: J. T. Rock; K. Winthrop; M. Harlan; C. D. James III and J. J. Rose; D. M. Goddard and J. J. Rose; J. W. Hopkins III; D. A. Fredrickson; M. E. Butler; M. R. Brown III
Discussant: J. A. McDonald

(7) Symposium: LITHIC EXPERIMENTS IN ARCHAEOLOGY: CASE STUDIES IN REPLICATION AND USEWEAR RESEARCH
Organizers: William Andrefsky, Jr. and Paula Bienfenfeld
Participants: W. Andrefsky, Jr.; P. L. Cleghorn; P. Bienfenfeld; G. H. Odell; C. M. Hoffman; H. Duel-Jensen; A. Van Gijn; L. Spencer; P. E. Siegel, M. K. Pope, J. Dagostino and M. S. Rathod; J. J. Flenniken and A. Raymond; A. J. Gilreath; L. H. Keeley
Discussants: D. Stanford and E. J. Dixon

(8) Symposium: THE RICHLAND CREEK PROJECT: MULTIDISCIPLINARY ADVANCES IN THE ARCHAEOLOGY OF NORTH-CENTRAL TEXAS
Organizer: L. Mark Raab
Participants: J. Bruseth, W. Martin and R. Huggins; R. G. Holloway; R. W. Moir; D. Journey; M. L. Raab and D. McGregor; W. Frossard
Discussants: D. A. Story and L. Banks

(9) Symposium: THE CONCEPT AND MEASUREMENT OF ARCHAEOLOGICAL DIVERSITY
Organizers: Robert D. Leonard and George T. Jones
Participants: R. D. Leonard and G. T. Jones (introduction); K. W. Kintigh; J. F. Simek; M. B. Schiffer; D. K. Grayson; G. T. Jones, C. Beck and D. K. Grayson; J. A. Tainter; N. A. Rothchilde; D. H. Thomas; D. Rindos; A. D. Leonard, F. E. Smiley and C. M. Cameron; P. V. Kirch; P. M. Rice; R. W. Dickens, Jr. and J. H. Wilson, Jr.; M. W. Conkey
Discussants: G. L. Cowgill and R. C. Dunnell

(2) General Session (continued): ARCHAEOLOGICAL RESEARCH IN THE MEDITERRANEAN, THE NEAR EAST, ASIA, AFRICA AND EUROPE
Chairperson: C. G. Sampson
Participants: S. McBrearty; C. G. Sampson; R. S. and R. L. Solecki; G. S. Webster; K. Gallis; J. Carothers and G. Schneider; E. S. Elster

(3) General Session: ARCHAEOLOGICAL RESEARCH IN ARCTIC AMERICA AND ASIA AND BOREAL EURASIA
Chairperson: J. S. Aigner
Participants: J. S. Aigner; J. W. Helmer, O. K. Mason; C. Nagle; R. E. Reanier; M. Zvelebil

(10) Symposium: LITHIC SOURCE IDENTIFICATION AS AN ANALYTICAL TOOL IN ARCHAEOLOGY
Organizers: Howard D. Winters and Lucianne Lavin
Participants: R. R. Larick; R. M. Stewart; B. E. Luedtke; S. G. Pollock; L. Lavin; H. D. Winters; D. I. Ives
Discussants: M. L. Fowler and C. Manson

(4) General Session (continued): ARCHAEOLOGICAL RESEARCH IN SOUTH AMERICA
Chairperson: J. Stone
Participants: C. L. Erickson; M. B. Hagstrom; C. Hastorf; J. D. Kent; J. Isaacson; J. D. Moore; G. S. Russell and C. A. Hastorf; P. W. Stahl; J. Stone; R. F. Watson; J. D. Kent

(5) General Session: ARCHAEOLOGICAL RESEARCH IN WESTERN NORTH AMERICA
Chairperson: J. G. Gallagher
Participants: J. L. Fagan; J. G. Gallagher; R. L. Greenspan; D. Griffin; M. C. Hall; E. S. Lohse and M. E. W. Jaehnig; D. J. McGuire; D. Rhode; M. G. Sutton; J. D. Wilde; J. J. Johnson

(11) General Session: ARCHAEOLOGICAL RESEARCH IN WESTERN NORTH AMERICA
Chairperson: J. G. Gallagher
Participants: S. B. Dondero and J. J. Johnson; J. L. Fagan; J. G. Gallagher; R. L. Greenspan; D. Griffin; M. C. Hall; E. S. Lohse and M. E. W. Jaehnig; D. J. McGuire; D. Rhode; M. G. Sutton; J. D. Wilde; J. J. Johnson

(12) Symposium: NEW PERSPECTIVES IN SANTA BARBARA CHANNEL ARCHAEOLOGY
Organizers: Chester King and Christopher Pierce
Participants: C. King; C. Pierce; L. Gamble; M. Glassow; J. Hammett; J. Johnson; M. Macko
Discussant: C. Irwin-Williams

(13) Symposium: EUROPEAN CONTACT IN NORTH AMERICA: ARCHAEOLOGY, DEMOGRAPHY AND HISTORY
Organizer: Ann F. Ramenofsky
Participants: D. R. Snow and W. A. Starna; K. Daegan; T. K. Perttula; M. Lyckett; S. Upham; S. K. Campbell; A. F. Ramenofsky
Discussant: W. R. Swagerty

Thursday Evening, April 12
Plenary Session: CONSERVATION ARCHAEOLOGY—1984
Organizers: William J. Mayer-Oakes and Alice W. Portnoy
Participants: W. D. Lipe; L. M. Taab; T. F. King; W. J. Mayer-Oakes
Respondents: D. E. Lewarch; J. Douglas; J. J. Hester; D. D. Fowler
Discussants: L. G. Wildesen; L. Cordell; V. Talmadge

NEWS FROM THE SOCIETY OF PROFESSIONAL ARCHAEOLOGISTS

J. Raymond Williams

President McGimsey has recently appointed several committees to review the Code of Ethics, Standards of Performance, Emphases, and other SOFA activities. All SOFA members have been asked for input. Committee chairs consist of Charles E. Cleland (Grievance Procedures), Thomas King (Code of Ethics and Standards of Research Performance), and E. Mott Davis (By-Laws). Chairs for the committees to review the different emphases include Jefferson Chapman (Field Research), Ellen Herscher (Collections Research), Jonathan Davis (Theoretical or Archival Research), David Brose (Archaeological Administration), Larry Banks (Cultural Resource Management), Mary Elizabeth King (Museology), George Guernerman (Teaching), Sherwood Gaslano (Marine Survey), James E. Ayres (Historical Archaeology), and R. E. Taylor (Archaeometric, Physical and Natural Science Research). Committees have also been appointed to review the DIRECTORY, the dues structure, and to develop an Officers Procedural Manual (Mark Lynott, Chair); applications for membership and the need for periodic recertification (William Lovis, Chair); develop a SOFA policy statement regarding the treatment of human skeletal remains (Cynthia Weber, Chair); develop a SOFA brochure (Mary Elizabeth King, Chair); and development of procedures for accepting or denying representation on the SOFA Board by other archaeological societies (C. E. McGimsey, Chair).

In other news related to SOFA activities, San Diego County recently adopted a "County of San Diego Archaeological and Historical Report Procedures" that requires archaeologists, consulting in the County's jurisdiction in compliance with the California Environmental Quality Act and Public Resources Code, to be members of SOFA.

The Society of Professional Archaeologists, the National Trust for Historic Preservation, and a number of other national environmental and cultural organizations are suing the Office of Surface Mining over recently published regulations that relate to cultural resources. These regulations would require only consideration of impact to resources on public lands that are already listed on the National Register of Historic Places. There are no provisions for survey of lands not previously surveyed. This could mean the destruction of most sites on non-federally owned coal lands. SOFA is the only archaeological society to file suit.

Members of the Society of Professional Archaeologists have been active organizing a letter writing campaign in support of Federal shipwreck legislation (S. 1504 and H.R. 3194) now before Congress. Currently, these bills are still in subcommittee and will not be voted upon until sometime after Congress reconvenes in February 1984. Letters of support for this legislation are still needed (see Bulletin, January 1984).

TEXAS A&M LIBRARY EXPANDING ANTHROPOLOGY HOLDINGS

The library of Texas A&M University currently is engaged in a major expansion of its holdings in anthropology. It seeks to purchase substantial libraries of anthropology books, either private or public. All geographical and topical areas of anthropology are of interest. Collections heavy in out-of-print works or in monograph series published by small societies, museums, and departments are especially desired. Foreign Language materials, especially those in Spanish are acceptable. Those who have such libraries for sale should contact Mr. Jay Martin Poole, Assistant Director for Collection Development, Sterling C. Evans Library, Texas A&M University, College Station, Texas 77843. Antiquarian book catalogs listing publications for sale individually by author and title should be sent to Dr. Norman D. Thomas, Library Representative, Department of Anthropology, Texas A&M University, College Station, Texas 77843.

UNIVERSITY OF CALIFORNIA, SANTA CRUZ, Board of Studies in Anthropology invites applications for a possible one-year, temporary appointment in archaeology for 1984-85 academic year, area specialization open.

Successful candidate will teach five undergraduate courses, including introduction to prehistory, archaeological research methods, evolution of complex societies, and cultural ecology. Ph.D. in hand required; prior teaching experience preferred. Rank and salary dependent on qualifications. Deadline is April 15, 1984. Send vita and names of three references to: Chair, Board of Studies in Anthropology, Kerr Hall, University of California, Santa Cruz, California 95064.

INTERMOUNTAIN RESEARCH, Drawer A. Silver City, Nevada 89428, invites applications for Assistant Director of Research for contract archaeology. Responsibilities will include preparation of research designs and proposals, service as principal investigator on projects of various sizes, supervision of field and laboratory personnel, and report writing. Minimum qualifications include M.A. in Anthropology, Ph.D. preferred; background in prehistory of western North America, particularly the Great Basin; experience in cultural resource management research. A specialization in one or more of the following is desired: faunal or floral analysis, statistics, and computer applications. Salary is competitive and fringe benefits are offered. Intermountain Research is located near Reno and Lake Tahoe, Nevada. Position begins April 15, 1984. Applications will be accepted through March 15; interviews will be conducted April 2-6, 1984. Send letter of application, vita, sample publications/reports, and three references (include telephone numbers) to Robert G. Elston, Director of Research.

1984 MIDWEST MESOAMERICA CONFERENCE

The Seventh Annual Mesoamerica Conference will be held March 24 and 25, 1984, at Loyola University in Chicago, Illinois. This is a meeting with informal talks and presentations. We require no abstracts and participants are discouraged from reading formal written papers. The emphasis has traditionally been on archaeology, but other presentations focusing on Mesoamerica (art history, ethnology, etc.) are welcome. For more information contact:

THE UCLA SPECIAL OLYMPIC YEAR SYMPOSIUM, "ARCHAEOLOGY OF THE OLYMPICS"

Since UCLA will have a significant role in the organization and conduct of the XXIII Olympiad to be held in Los Angeles in 1984, a special symposium focusing on the ancient Olympic Games has been organized by the Institute of Archaeology, UCLA.

The program is composed of two days of lectures and discussions among the invited scholars, the UCLA faculty, students and interested guests. Among the participants are some of the outstanding scholars in their fields. It is expected that the symposium will subsequently be published by the Institute of Archaeology.

The symposium is designed to provide a forum for the presentation and discussion of original research material relating to various aspects of the ancient Olympic Games. The archaeological evidence will be complemented by the social, historical, linguistic, artistic, historical and religious context of the phenomenon of the Olympic Games in antiquity. The Olympic sites themselves, the contests and contestants and the reflection of the games in sculpture, painting and monuments will all be features. As you will note, many of the topics, such as political peace during the Games, women in ancient athletics and professionalism are very timely today.

The symposium will be held Thursday and Friday, April 5 and 6, 1984, at the Faculty Center on the UCLA campus. There will be a nominal registration fee that will include a Registration Packet with parking and admission to all the lectures. Admission at the door will also be possible. Please contact the Institute of Archaeology, (213) 825-4169 for additional information as it becomes available.

5TH ANNUAL MID-SOUTH ARCHAEOLOGICAL CONFERENCE

The 5th Annual Mid-South Archaeological Conference will be held June 2 and 3, 1984, at Pinson Mounds State Archaeological Area, Pinson, Tennessee. The theme of the conference is the Middle Woodland period in the Mid-South and the Lower Mississippi Valley. Abstracts should be submitted by April 1, 1984. For further information contact: Robert Mainfort, Rt. 1, Box 316, Pinson, Tennessee 38366.
FIRST INTERNATIONAL CONFERENCE AND WORKSHOP ON HUMAN VS NATURAL BONE MODIFICATION

The Center for the Study of Early Man, University of Maine at Orono, is organizing a conference of invited specialists to present papers at Carson City, Nevada, August 17 to 19, 1984. Other professionals and the public are welcome. Registration materials can be obtained by writing Donald R. Tuohy, Local Arrangements Chairman, Nevada State Museum, Capitol City Complex, Carson City, Nevada 89701, (703) 885-4810.

ICAZ INTERNATIONAL CONFERENCE

The Fifth International Conference on Archaeozoology will be held in Bordeaux, France, between the 25th and 29th of August 1986. This conference is sponsored by the International Council for Archaeozoology and is being organized by Pierre Ducos and his French colleagues with the support of various local and national French, American, research, cultural, and political bodies. There is no specific theme for the conference other than "taking stock of world archaeozoological research." Individual contributions and ideas for symposia are solicited so long as they fall within the definition of archaeozoology as "the study of animal remains connected with the settlements of ancient human groups, thus contributing to the knowledge of those groups." For registration forms, please write to the organizer: Dr. Pierre Ducos, V^e Conférence IC Az, C. R. E. P., St. André de Cruzières, France.

Previous International Conferences on Archaeozoology were held in Budapest (1971), Groningen (1974), Szczecin (1978), and London (1982). The last conference attracted more than 230 researchers from 32 countries including 41 from the USA. The proceedings of that London conference are currently being published in four volumes by British Archaeological Reports (Oxford) under the title "Animals and Archaeology." The first volume, subtitled "Hunters and Their Prey," has already appeared (BAR International Series 163, 1983).

The International Council on Archaeozoology was formed in Groningen in 1974 in order to promote the study of faunal remains from archaeological sites. Corresponding membership is available to anyone interested in archaeozoological or related research by writing the General Secretary: Dr. A. T. Clason, Biologisch-Archaeologisch Instituut, Poststraat 6, 9712 ER Groningen, The Netherlands.

The Engineering and Groundwater Committee of the Society of Exploration Geophysicists is sponsoring a session including technical papers on the application of remote sensing and high resolution ground geophysical methods in mapping and evaluating human cultural resources at the Fall 1984 S. E. G. Annual Meeting in Atlanta on "Archaeology and Geophysics." A 1,000-2,000 word extended abstract will be required by May 1, 1984, by those interested in participating. Additional information is available from: Dr. Jeffrey C. Wynn U.S. Geological Survey 913 National Center Reston, Virginia 22092 (703) 860-6564

ENVIRONMENTAL PAPERS SOUGHT FOR ANTHROPOLOGY MEETING

The Committee of Anthropologists in Environmental Planning is seeking papers for one or more sessions at the 1984 American Anthropological Association annual meeting in Denver (November 14-18). Papers are particularly sought on topics: state or regional plans for historic/cultural resource preservation; and state-of-the-art reviews of environmental planning subjects commonly studied by anthropologists (social impact assessment, American Indian Religious Freedom law, etc.) Effects of the November 1984 election on these topics will be a major focus of discussion at the meeting. Abstracts, on or before April 24, and any paper fees should be submitted by March 1, 1984, to Catherine Slusser, Historic Preservation Office, 1133 North Capitol Street, Room 3380, Washington, D.C. 20002 (state plan related papers) or to Richard Lerner, Environmental Branch, U.S. Army Corps of Engineers, 211 Main Street, San Francisco, California 94105 (other environmental planning related papers). Forms appeared in the November 1983 Anthropology Newsletter, or may be obtained from the A.A.A., 1703 New Hampshire Avenue, NW, Washington, D.C. 20009.

NEW WORLD CONFERENCE ON RESCUE ARCHEOLOGY NOVEMBER 15-17, 1984, DALLAS, TEXAS

The New World Conference on Rescue Archeology was conceived and organized to promote international communication leading to active cooperation in the preservation of the historic and prehistoric cultural heritage shared by all American people. Throughout the Western Hemisphere massive land disturbance associated with public works projects—as well as private development—daily threaten, disarrange and destroy portions of our cultural heritage that can never be restored; citizens of all Americas must accept the responsibility for protecting a significant part of it for the benefit of future generations. Concerned New World preservationists are urged to attend and participate.

Conference Setting

Dallas, Texas, has been chosen as the site for the Second New World Conference on Rescue Archeology. All daytime sessions will be held in the Dallas Hilton Inn, the headquarters hotel, located at 5600 North Central Expressway, adjacent to the Southern Methodist University Campus.

(continued on page 9)
Major Conference Objectives

-- To initiate fruitful communication between cultural preservationists and those responsible for making decisions that affect cultural resources threatened by land disturbance in large public works projects.

-- To improve the quality or archeological research in all nations of the Western Hemisphere.

-- To elevate archeology and historic preservation to a higher level of consciousness among all New World citizens.

Conference Approach

Distinguished speakers, symposia, panel and roundtable discussions will address Conference objectives. Receptions, luncheon and dinner sessions, and a field trip to an important excavation project will offer opportunities for professional collaboration.

Individual speakers and discussion groups will focus their remarks on topics identified by the First World Conference on Rescue Archeology, such as:

-- Recognition by governments of the effects of development on archeological resources and associated cultural values during the early planning of large public works programs.

-- Communicating to planners, developers and preservationists a better understanding of the techniques, objectives, methods--the state-of-the-art--of modern archeology.

-- International cooperation to discourage illicit traffic in cultural property.

-- Rescue archeology, science and the universal realities of public works projects.

-- Responsible interaction with the public on the objectives and results of rescue archeology and on the importance of protecting our cultural heritage.

Conference Sponsors

-- The Organization of American States
-- Southern Methodist University
-- U.S. Army Corps of Engineers
-- The National Trust for Historic Preservation

HEADQUARTERS HOTEL

All Annual Meeting functions, except optional tours, will be held at The Portland Hilton hotel which is located downtown in the heart of Portland's business district.

The hotel is a modern 23-story tower with 500 rooms, each of which have climate control, soundproof walls, direct-dial phone with message alert and color TV. Panorama, rooftop restaurant, offers steak and seafood dining. The adjoining Panorama Bar offers piano entertainment nightly. Twigs Dining Room, just off the main lobby is open 6:30 AM to 10:30 PM with entrees starting at $4.95. Complimentary guest memberships are available in the International Club which has dancing nightly, except Sunday and Monday.

Other features include 24-hour room service, baby-sitters, ice and vending machines and indoor parking for 100 cars. (Additional indoor garages nearby.)

The hotel is twenty minutes from Portland International Airport, where attendees can pick up a twelve-passenger minibus directly to the hotel for $4.00 a person. The bus operates every twenty minutes. For those who are driving, the hotel is located 12 blocks from the I-5 Freeway.

The Society has arranged special rates at the Portland Hilton: Single - $48.00; Twin or Double - $64.00. These rates, however, are available only until March 20. Hotel reservations should be made directly with the hotel. A reservation card was included in the reservation packet. The Portland Motor Hotel has been selected as the overflow property; all room reservations should be sent to the Portland Hilton which will act as the housing bureau.

VOLCANO COUNTRY

VIA MOTORCOACH

A bus tour to Mount St. Helens is one of the two optional events being offered to those attending SAA's 49th Annual Meeting in Portland. The tour is being offered twice -- on Wednesday, which is the day before the scientific sessions begin, and on Sunday, which is the day after the meeting ends.

The bus company has provided the following descriptions:

Departing Portland, Oregon, you motor north. Crossing the Columbia River and entering Washington, if weather permits, you will see Mount St. Helens framing the horizon to the northeast. Your formal introduction to the volcano begins at the Mount St. Helens Information Center at Kelso. Operated by Gifford Pinchot National Forest personnel, the center's slides, video tape and other interpretive materials depict the area around the mountain prior to, during, and after the eruption. You may also view seismographs, which are monitoring current earthquake activity on Mount St. Helens.

From Silver Lake, you motor through the miles of devastation along the Toutle River. Your tour includes the town of Toutle, which experienced extensive destruction and flooding during the cataclysmic event.

The motorcoach will stop at the end of the Spirit Lake Highway where you have the option to take a helicopter flight to the Crater of Mount St. Helens or take the shuttle bus to a scenic viewpoint (not included in tour price).

Returning to Silver Lake, you have time for shopping and browsing.

SAA Secretary Leslie Wildesen is working with the people at the National Forest and local geologist in the hope that we will be able to add an extra twist or two to the tour for SAA members.

Wildesen says it is truly amazing what the eruption did to Mount St. Helens. Prior to the eruption, the mountain sat there like an inverted cone. Now its whole top has been blown off with more extensive damage to one side--and it continues to emit steam which is visible from miles away.

(continued on page 10)
The excursion takes about 7 hours. The cost is $22.00 which includes a box lunch and a beverage. Reservations should be made on the Registration Form sent to all members.

The number of participants will be limited by the number of seats available. Thus, early registration is advisable.

PORTLAND from the STERNWHEELER

A two-hour river cruise and buffet dinner aboard the Sternwheeler Columbia Gorge on Saturday evening, April 14, is offered as an optional event to those attending SAA's Annual Meeting in Portland.

Sternwheelers played an important role in the development of Portland because they linked Portland to the people and lands to the East, up the Columbia River. They were the darlings of the waterways because they could operate in shallow waters, were maneuverable, efficient, and could generate more power with a giant paddle than a propeller—and they were ideal for swift water navigating.

In 1933 work began on dams and canals which changed the pattern of water transportation and led to the demise of the sternwheeler, which was replaced by the diesel tug and modern barges. This new passenger vessel "Columbia Gorge" was built to classic sternwheeler specifications and was completed in October 1983.

Boarding for the cruise will begin at 5:00 PM. The boat will leave the dock at 5:30 PM and return at 7:30 PM. Passengers will view the city of Portland from the Willamette (wi lam' it) River which flows north through the city into the Columbia River.

The cost of the cruise and buffet is $25.00, but reservations must be made in advance by completing the appropriate section on the annual meeting registration form.

DISCOUNT AIRFARES to ANNUAL MEETING

The Society has arranged for special discount airfares for members attending the annual meeting in Portland. On United Airlines we offer an airfare which is less than super-saver fare and which does not have the restrictions of super-saver fares. This is a special annual meeting fare which SAA has arranged through GTU DOMESTIC and which, therefore, is not available to the general public.

Regardless of the airline you wish to use, GTU DOMESTIC will secure the lowest fare available for your trip.

Make your arrangements by calling toll free (800) 424-5468. In the greater Washington, D.C. metropolitan area, call (703) 836-8280.

PLACEMENT SERVICE TO FUNCTION AT ANNUAL MEETING

SAA invites applicants and employers to use the Placement Service. It will operate at its Annual Meeting in Portland, April 11-14. The Placement Service brings together at the Annual Meeting those seeking positions and those with positions open.

Position Open listings are posted on bulletin boards at the Placement Center where they may be viewed by applicants. If an applicant is interested in pursuing one of the positions, the applicant requests an interview by filling out a message to the prospective employer at the Placement Center Message Desk.

Likewise, a directory of registered applicants is available to employers. If an employer, in reviewing the resumes, comes upon an applicant which interests him or her, the employer can leave a message for the applicant at the Placement Center's Message Desk. The employer may then also reserve a time for interviewing the applicant in the room set aside for this purpose at the Placement Center.

This match-making service is made available by SAA to its members at no charge.

Forms and information for preregistering with the Placement Service are available from SAA's Executive Offices at 1511 K Street NW, Washington, D.C. 20005. Applicants and employers are urged to preregister before the preregistration deadline of April 2.
