JUNE-JULY-AUGUST 1992

NO. 3

Election Issues and Results

Shereen Lerner, SAA Secretary

At the April meetings in Pittsburgh, it was announced that Bruce Smith has been chosen by the membership to fill the position of President-elect, Bruce Rippeteau is the new Secretary-elect, and Roger Anyon and Diane Gifford-Gonzalez were elected as members of the Executive Board.

Following every election there are always questions concerning the nominations process and the selection of candidates. In particular, this election resulted in amendments to the SAA Bylaws, changes that affect the procedures to be followed by future Nominating Committees. The following provisions (*italicized*) were changed in the Bylaws:

Section 1.a. A Nominating Committee, for the nomination of officers, members-at-large of the Executive Board, and *two members of the Nominating Committee*, shall be composed of four members and a Past Officer. The Past Officer shall be the Chairperson of the Nominating Committee and shall vote in case of a tie. A quorum shall consist of three members of the Committee and the Past Officer.

Section 2.c. *Two of the four members of the Nominating Committee shall be elected by the general membership each year by mail ballot.* The other three members of the Nominating Committee shall be elected at the first meeting of the Executive Board following the close of the Annual Business Meeting of the Society. At that time, the President shall submit to the Executive Board a list of at least seven names, including two Past Officers. From this list, the Executive Board shall, by preferential voting, elect two members and a Past Officer.

The Nominating Committee shall nominate *one or more member candidates* for the offices of Secretary-Elect and Treasurer-Elect for the years those offices will be vacant. For the other offices, *President-Elect, at-large members of the Executive Board, and Nominating Committee mem-*

bers, the Nominating Committee shall nominate at least two and no more than three member candidates. All prospective nominees must indicate in writing to the Nominating Committee their willingness to serve as an officer, as a member-at-large of the Executive Board, or as a member of the Nominating Committee.

These bylaw changes go into effect for the 1994 Nominating Committee.

Two primary issues were raised by the membership during this year's election.

1. *Why was there only one nominee for the office of Secretary-elect?* This question is raised nearly every year regarding the offices of Treasurer and Secretary. Both of these positions prove difficult to fill because of the amount of responsibility that goes with them. Both the Secretary and Treasurer spend a great deal of their time on Society business. These positions must be filled by individuals who are willing to make a large time commitment, and who have institutional support for their activities.

2. *Why was there a separation on the ballot by gender?* There is no Society policy to divide the two slates by gender. In this particular case, the decision was based upon the qualifications of nominees and experience from previous elections. It was with great deliberation and positive intention that the Nominating Committee decided to break the slates out by gender. The Committee believed that election of a particular candidate is in part a result of name recognition and rank. The Committee therefore tried to oppose individuals with comparable name recognition, at comparable stages of their careers. In this case, the Committee felt that the male nominees had greater name recognition and seniority, and therefore decided to group them. In turn, the Committee grouped three women at the Associate level who they believed had similar name recognition and experience.

The *Bulletin* of the Society for American Archaeology (ISSN 0741-5672) is published five times a year (January, March, June, September, and November) and is edited by Stephen Plog and Don Rice. Editorial Assistants are Whitney Leeson and Benjamin Ford. Please send all articles, announcements, letters to the editor, or other information for inclusion in the *Bulletin*, to the Department of Anthropology, 419 Cabell Hall, University of Virginia, Charlottesville, VA 22903. For information, please call (804) 924-3549, or contact us via fax at (804) 924-1350 or electronic mail at SAANEWS@VIRGINIA. All advertising and placement ads should be sent to the Advertising Director, Suite 200, 808 17th St., NW, Washington, DC 20006, by the first of the month prior to the month of issue. The *Bulletin* is provided free to members, and institutional subscribers to *American Antiquity* in the US and Canada. Items published reflect the views of the authors and their publication does not imply SAA endorsement of those views.

Call for Nominations

1994 Program Chair

This fall the Executive Board of the Society for American Archaeology will be selecting an individual to serve as Program Chair of the Society's 1994 Annual Meeting, to be held at the Disneyland Hotel in Anaheim, California. Anyone interested in serving in this capacity, or who would like to nominate other individuals, can contact Bruce D. Smith for further information: Department of Anthropology, National Museum of Natural History, Smithsonian Institution, Washington, D.C. 20560; (202) 357-1572; FAX (202) 357-2208.

Bulletin Editor

This fall the Executive Board of the Society for American Archaeology will be selecting an individual or individuals to serve as the new Editor(s) of the SAA *Bulletin*. Anyone interested in serving in this capacity, or who would like to nominate other individuals, can contact Bruce D. Smith for further information: Department of Anthropology, National Museum of Natural History, Smithsonian Institution, Washington, D.C., 20560; (202) 357-1572; FAX (202) 357-2208.

New Latin American Antiquity Editor

Latin American Antiquity announces that beginning March 1, 1993, all manuscripts and queries about manuscripts in progress should be addressed to: Dr. David M. Pendergast, Department of New World Archaeology, Royal Ontario Museum, 100 Queen's Park, Toronto, Ontario M5S 2C6, Canada. Dr. Pendergast holds the title of Editor-designate until the 1993 Annual Business Meeting, at which time he will assume the title of Editor. The first issue of *Latin American Antiquity* under his editorship will be September 1993.

After the change in editorship, production of *American Antiquity* and *Latin American Antiquity* will continue to be handled by the office of the Managing Editor. Queries regarding electronic production, copyediting, style, and related matters should be addressed to: Dr. Teresita Majewski, Department of Anthropology, Bldg. 30, University of Arizona, Tucson, AZ 85721; (602) 621-6297.

Election Issues and Results, continued from page 1

The 1992 Nominating Committee was chaired by Don Fowler, and consisted of Alison Brooks, Barbara Stark, Ruthann Knudson, and Ann Ramenofsky. The Committee solicited nominations from the membership, by way of a notice in the *Bulletin*. Only one nomination was received as a result of the *Bulletin* announcement—all others came from the Committee members personally soliciting nominations. SAA members who desire more input into the selection of slates, as indicated by comments received with some returned ballots, are urged to contact Committee members when there are calls for nominations.

NEWS and NOTES

An interdisciplinary conference on **Belize** is now accepting proposals for individual papers for a March 1993 meeting in Jacksonville, FL. Chairpersons and commentators in all fields of study are sought. Submission deadline is October 15, 1992. Contact: Tom Leonard, Conference Coordinator, Department of History, U of North Florida, Jacksonville, FL 32216.

The *Journal of the Association of Graduates in Near Eastern Studies* (JAGNES), now in its third year, is a semi-annual publication devoted to graduate student scholarship in fields that relate to all areas of Near Eastern Studies, both ancient and modern. JAGNES is committed to providing a forum for graduate students to publish articles and book review on any topics in the Near (Middle) Eastern fields of study. For subscription rates, contact: JAGNES Editor, 250 Barrows Hall, U of California-Berkeley, Berkeley, CA 94720.

The *Underwater Archaeology* proceedings from the 1991 meeting of the Society for Historical Archaeology (SHA) are now available. John Broadwater is the editor for this volume, which contains papers from the Richmond meeting. For copies and prices, contact: SHA, P.O. Box 30446, Tucson, AZ 85751-0446.

The **National Endowment for the Humanities Reference Materials Program** supports projects to prepare reference works that will improve access to information and resources. Support is available for the creation of dictionaries, historical or linguistic atlases, encyclopedias, concordances, reference grammars, data bases, text bases, and other projects that will provide essential scholarly tools for the advancement of research or for general reference purposes. Application deadline is September 1, 1992, for projects beginning after July 1, 1993. Contact: Reference Materials, Room 318, NEH, Washington, D.C. 20506.

Continued on page 7

POSTER AWARDS TO BE GIVEN AT 1993 MEETINGS

Since the establishment of the poster sessions at the Las Vegas Annual Meeting in 1990, these sessions have become an increasingly important component of the annual meetings. Most members now recognize that the poster sessions offer an alternative avenue for disseminating information, providing more opportunity for productive interaction with colleagues than does a symposium presentation. In order to recognize this growth, and to encourage future poster sessions, the Executive Board recently established two new awards to be given for the first time at the 1993 meeting in St. Louis, one for the best student poster and the other for the best non-student poster. Further details will be announced in future issues of the *Bulletin*.

PROPOSAL DEADLINE FOR 1993 MEETINGS

The deadline for completed symposia proposals and abstracts for contributed papers, research reports, or poster sessions for the 1993 meetings in St. Louis is September 28, 1992. Proposals and abstracts must be submitted on appropriate SAA forms that were mailed to all SAA members with their Spring ballot. Materials should be mailed to 1993 Program Committee, Society for American Archaeology, 808 17th St. NW, Suite 200, Washington, DC 20006. Advance registration forms and fees must accompany all submissions.

Distinguished Service Award to John Yellen

T. Douglas Price, Chair, SAA Distinguished Service Award Committee

We are pleased to honor Dr. John E. Yellen of the National Science Foundation with the 1992 Distinguished Service Award of the Society for American Archaeology, in recognition of his contributions to the discipline and its members. John Yellen has served the archaeological community through his role as Director of the Anthropology program at the NSF for more than 15 years. During his tenure, the Program has improved greatly in its response to and concern for the profession. The Anthropology Program has undergone a number of changes designed by Dr. Yellen to better meet the needs of the discipline, particularly through the creation of individual panels and programs for each of the subdisciplines and for archaeometry. Funding for archaeology, while not sufficient, has grown concomitantly with the Foundation, and constitutes the most important source of funding for archaeological research. In his continual efforts to increase research funding, John has helped initiate new programs such as seed grants, exploratory research, radiocarbon laboratories, archaeometry, and systematic museum collections. Moreover, given his long tenure in this sensitive position, he has avoided politicizing the program, and has maintained a remarkably fair and unbiased perspective on the encouragement and funding of research.

As a proponent of quality research, John Yellen has time and again sought innovative ways to continue support for worthwhile projects and to stimulate new projects, especially among younger scholars. Yellen's leadership has also seen an increased awareness of the NSF and its various programs. He has worked hard to improve relations between the anthropology program at NSF and other funding agencies, such as the National Endowment for the Humanities, the National Park Service, and the National Geographic Society.

John Yellen also has continued his own research, despite the full time administrative work load he carries. His interests and publications focus upon the Stone Age of Africa and they are an important contribution to the archaeological study of that area. The Society and the profession have been well served by Dr. John Yellen's many contributions and dedicated efforts, and we are delighted to honor his service here.

Crabtree Award to Stuart W. Connor

Dan F. Morse, Chair, SAA Crabtree Award Committee

Stuart W. Conner has been chosen as the 1992 recipient of the Crabtree Award for outstanding achievement by an avocational archaeologist. Conner, a retired attorney from Montana, has been a leader in the Montana Archaeological Society for the past 30 years, serving multiple terms as Secretary, President, and on the Fiscal Committee. Recently, a benefactor offered the Montana Archaeological Society \$25,000 if that amount could be matched. Leading an endowment fund drive, Stu Conner took up the challenge. Writing scores of letters and making dozens of personal contacts, he raised more than the required amount almost single handedly.

However, Stu Conner's contributions to northwestern plains archaeology are far greater than those of an organizer and fund raiser. His research in rock art is so well recognized that it is the standard used by all others in the region. He has an incredible storehouse of manuscripts, memoranda, photographs, slides, notes, and tape recorded interviews with elders in the Crow tribe. He has helped numerous individuals by providing access to his written memorabilia and site forms.

Always pushing the professional community to do more recording before it is no longer possible to do so, he has lobbied locally and nationally to get support for research that would help preserve cultural resources. Stu has also organized numerous meetings and symposia, that have brought together archaeologists and anthropologists from diverse backgrounds to discuss a variety of topics. The successes of these symposia were outstanding and the publications that resulted from them will remain standards in American archaeology for many years.

Stu Conner is a remarkable person who has given a tremendous amount to archaeology. The text on the plaque presented with the award reads, "Stuart W. Conner is a leader and role model for archaeologists and the profession is greatly enriched because he chose archaeology as an avocation."

Fryxell Award to Richard A. Yarnell

Gayle J. Fritz, Fryxell Award Committee

A central concern of anthropologists for more than a century has been the evolution of agricultural societies and the study of ecosystems. Richard Yarnell has had a distinguished career in ethnobotany, and has contributed significantly to an increased understanding of prehistoric subsistence and environments in North America. In its integration of concepts and data from botany, ecology, ethnology, and archaeology, his research exemplifies the interdisciplinary vision recognized by the Fryxell Award.

Richard Yarnell was introduced to economic botany by his father and he did his graduate work at the University of New Mexico (M.A.) and the University of Michigan (Ph.D.). He received training in paleoethnobotany from Volney Jones, in archaeology from James B. Griffin, and in cultural anthropology from a faculty that included Leslie White and Elman Service. Yarnell has analyzed archaeobotanical remains, the contents of paleofeces, and living plant communities on archaeological sites. He pioneered a systematic method for laboratory analysis of flotation-recovered macrobotanical remains. His key theoretical contributions have dealt with the domestication of native seed-bearing plants, the effects of human harvesting activities, and the ecological changes resulting from prehistoric clearing and burning. No other single individual deserves as much credit for recognizing the significance of morphological changes and depositional patterns in the Eastern Agricultural Complex. He is currently compiling a bibliography of archaeological plant remains in Eastern North America. Adding this information to his computerized archaeobotanical data base and his even more phenomenal personal command of the subject, Yarnell has been able to produce masterful regional syntheses.

In recognition of past and continuing contributions to archaeology and botany, the Society for American Archaeology is pleased to present the 1992 Fryxell Award for Interdisciplinary Research to Richard A. Yarnell.

Dissertation Award to Lynette C. Norr

Janet E. Levy, Chair, SAA Dissertation Prize Committee

The Society for American Archaeology awarded the 1992 Dissertation Prize to Lynette C. Norr for her dissertation, *Nutritional Consequences of Prehistoric Subsistence Strategies in Lower Central America*. Dr. Norr completed her dissertation in 1990 at the University of Illinois at Urbana-Champaign under the direction of David C. Grove. The dissertation was nominated for the prize by Frederick W. Lange. Dr. Norr is currently a post-doctoral research associate in the Department of Anthropology, University of Illinois, and Associate Director of the Stable Isotope Laboratory.

In her dissertation, Dr. Norr synthesizes demographic, paleopathological, and stable isotope evidence for a sample of over 500 individuals from over 20 sites in Panama and Costa Rica, and applies these data to interpretations of nutritional status and health. She demonstrates that these populations consumed mixed diets, including terrestrial and marine protein sources, as well as maize. She also argues that health status cannot be simply linked to subsistence. Patterns of health and stress are related in complex ways to geography, settlement pattern, sanitation, and subsistence strategies.

One of the great strengths of Dr. Norr's dissertation is the lucid explanation of methodology of stable isotope studies of human bone collagen. She is both restrained and sophisticated in her interpretations of these very complex analyses.

The SAA Dissertation Prize Committee also recommended honorable mention to three nominees: Dr. Brian S. Bauer for his dissertation, *State Development in the Cusco Region: Archaeological Research on the Incas in the Province of Paruro* (1990, Chicago); Dr. Louise M. Jackson for her dissertation, *Nineteenth Century British Ceramics-A Key to Cultural Dynamics in Southwestern Alaska* (1991, UCLA); and Dr. Carla Van West for her dissertation, *Modeling Prehistoric Climatic Variability and Agricultural Production in Southwestern Colorado: A GIS Approach* (1991, Washington State).

Positions Open

The Maryland State Highway Administration Archaeology Group has an immediate opening for an archaeologist to assist SHA in its compliance with Federal and State historic preservation laws. Responsibilities will include, but not be limited to conducting in-house archaeological studies as Supervisory Archaeologist and managing other project to be completed by outside consultants. Qualifications: working knowledge of Mid-Atlantic archaeology and proven ability to write archaeological reports. M.A. in anthropology, archaeology, or closely-related field is preferred. Historical archaeological experience is desirable, as is experience in completing compliance studies. This is a one-year, unbenefitted contractual position, with the potential for annual renewal. Wages will be commensurate with experience, ranging from \$10.69-13.36/hr. Submit current resume with cover letter and references to: Dr. Ira Beckerman, Archaeology Group Leader, Maryland State Highway Administration, 2323 W. Joppa Road, Brooklandville, MD 21022; (410) 321-2213.

Arizona State Parks seeks an individual to fill the position of State Historic Preservation Officer/Chief, Historic Preservation Section. The position reports to the Director of Arizona State Parks and is responsible for administering Federal and State historic preservation programs. Key responsibilities include administration of annual budget in excess of \$1 million, staffing of three citizen committees, and supervision of staff of 16; the Arizona and National Registers of Historic Places, compliance by Federal and State agencies with historic preservation laws, Federal investment tax and State property tax reduction programs, prehistoric and historic property inventory; public programs such as Site Stewards, Archaeology Week and Preservation Week; Federal grants-in-aid and the Arizona Heritage Fund which allocates \$1.7 million for historic preservation grants. The applicant should have familiarity dealing with multicultural issues, particularly those applicable to the Southwest. Applicant must have a degree in anthropology, archaeology, history, architectural history, architecture or closely related field, and experience in administering statewide historic preservation programs. Resumes will be accepted until July 15. Starting date as soon as possible. Salary negotiable. Submit resumes to: Personnel Officer, Arizona State Parks, 800 W. Washington, Suite 415, Phoenix, AZ 85007; (602) 542-6922.

Ecology and Environment, nation's leading environmental consulting firm, has senior level Archaeologist position available. Position requires 5-10 years of project management experience, managing or directing cultural resource investigations in Florida and/or the southeastern U.S. Experience in State and Federal requirements, managing teams for Phase

I,II,III studies, and marketing/proposal writing preferred. Masters degree or higher required. Send resume and salary history to: Ecology and Environment, Inc., 1203 Governor's Square Boulevard, Tallahassee, FL 32301.

The Idaho State Historical Society seeks an archaeologist to serve as State Archaeologist, Director of the Idaho Archaeological Survey, and Deputy State Historic Preservation Officer. Responsibilities: directs statewide program of archaeological resource identification, documentation, and curation at regional centers; directs and develops policies for historic preservation program and manages personnel; reviews, comments, and develops agreements related to Section 106 review; advises university, State, and Federal archaeologists on laws, regulations, and policies governing archaeological investigations; promotes public knowledge of cultural resources. Qualifications: M.A. or Ph.D. in anthropology; knowledge of western North American prehistory and history. Contact: Idaho State Historical Society; (208) 334-3847. AA/EOE.

Penn State University--Mesoamerican Archaeologist: a tenure-track position at Associate to Full Professor rank beginning Fall 1993. Candidates should have outstanding research records and active fieldwork in highland Mesoamerica. Preferred interests include cultural evolution/ecology and development of complex societies. Contact: Professor David Webster, Department of Anthropology, Box B, 409 Carpenter Building, The Pennsylvania State University, University Park, PA 16802; preferably before July 1, 1992. Women and minorities are encouraged to apply. AA/EOE.

The University of Missouri, Museum of Anthropology has a non-tenure track, staff position open for an Associate Museum Curator beginning August 1, 1992. An M.A. in anthropology and prior experience in computer data base management, curation and conservation, exhibition, and general museum work is necessary. This is a 12 month, benefit-eligible position with an annual salary of \$20,000. Closing date July 1, 1992. Send applications with references to: Chair, Museum of Anthropology Search Committee, Department of Anthropology, University of Missouri, Columbia, MO 65211. AA/EOE.

INFOTEC Research, Inc. (IRI) has both temporary and regular full-time positions available. Successful applicants should expect challenging work, excellent compensation, and opportunities for advancement. Currently, IRI is seeking: (1) a Senior Historical Archaeologist; (2) Project Managers/Directors; (3) Field and Laboratory Technicians; (4) a Chief Administrative Officer (who will report directly to IRI's President/CEO); (5) an Assistant Program Administrator; (6) a Technical Editor; and (7) a Lithics Analyst. The positions are assigned, variously, to IRI's offices in: Eugene, OR; Sonora, CA; Fresno, CA;

or to field locations throughout the western U.S. Please send c.v., one-page resume, list of references (with phone numbers), and brief letter of interest to: Dr. Michael J. Moratto, INFOTEC Research Inc., 423 W. Fallbrook, Suite 204, Fresno, CA 93711. No telephone inquiries. AA/EOE employer. We discriminate in favor of well-educated, industrious, capable individuals without regard to "race," ethnicity, sex, age, etc.

Mariah Associates, Inc., a regional environmental services company, seeks experienced, self-motivated cultural resources management (CRM) specialists to conduct quality research in a CRM context for projects throughout the south-central and western U.S. The following immediate full-time, salaried positions are available in Austin, TX, Albuquerque, NM, and Laramie, WY offices: (1) Project Managers—M.A. and 5 years of CRM experience; full budget, schedule, and contractual responsibility, 36-42K; (2) Principal Investigators—M.A. and 5 years experience, 32-40K; (3) Project Directors—M.A. and 4 years CRM experience, 29-35K; (4) Field Directors—M.A. and 3 years CRM experience, 28-32K; (5) Historic Archaeologist—M.A. and 3 years experience, 28-32K; (6) Crew Chiefs—B.A. and 3 years CRM field experience, 21-26K. All positions include complete benefit package, attractive bonus, and profit sharing plans. Send letter of interest, resume, and salary history to: Mariah Associates, Inc., Attn: R. McGuire, 3810 Grand Avenue, Laramie, WY 82070. No telephone inquiries.

The Johns Hopkins University Center for the Advancement of Academically Talented Youth (CTY) anticipates openings for archaeology teachers in its summer residential programs. Two consecutive three-week sessions, June 28-July 17 and July 19-August 8, 1992, will be held at Franklin and Marshall College, Lancaster, PA. There will also be a session from July 19-August 8, 1992, at Skidmore College, Saratoga Springs, NY. CTY offers college-level instruction to students 12-16 in the Humanities, Mathematics, and Sciences. Having taken the SAT in the seventh grade, the CTY students have scored as well as any college-bound senior. CTY's Archaeology course is designed as the introduction to archaeological method and theory. It illustrates technical and theoretical concepts through application, particularly to the archaeology of the Americas. The course will help develop skills in techniques like site survey, layout, excavation, and artifact processing. A lab assistant, an upper-division college student, helps with duties. The salary for the position is commensurate with the candidate's education and teaching experience. CTY provides room and board. Contact: CTY-JHU Summer Programs Employment, 3400 North Charles Street, Baltimore, MD 21218; (410) 516-0337.

Contract Archaeology Positions open for Principal Investigators in the Washington, D.C. and Houston, TX offices of 3D/Environmental Services, Inc. at

full-time, benefited levels. 3D/ESI maintains a Cultural Resources Division involved in an ongoing program of CRM consulting, including analysis of several large assemblages. Specialties needed include lithic analysis, ceramic analysis, floral analysis, faunal analysis, or underwater. An historic archaeology position also possible. Graduate degree and significant experience required. Send vita and letter to: Dr. David Rue, 3D/ESI, 781 Neeb Road, Suite 5, Cincinnati, OH 45233.

News and Notes, continued from page 3

The seventh edition of the *Directory of Graduate Programs in Archaeological Geology and Geoarchaeology* is now available. To obtain a copy, contact: George Rapp or Sue Mulholland, Archaeometry Laboratory, University of Minnesota, Duluth, MN 55812.

John F. Rogers, chairman of the Advisory Council on Historic Preservation, has submitted his resignation to President Bush. Rogers cited the heavy and constant demands of his job as Undersecretary of State for Management as motivation for this decision.

The Society for Historical Archaeology announces the publication of a special issue of the journal *Historical Archaeology* devoted to the study of gender. Volume 25, Number 4, edited by Donna J. Seifert, is a collection of nine articles providing a theoretical and substantive foundation for study of gender issues in archaeological research. Contact: SHA, P.O. Box 30446, Tucson, AZ 85751-0446.

Members insured in the **SAA Life Insurance Plan** as of September 30, 1991, will receive a credit of 15% of their semiannual premium due on the April 1, 1992, renewal. This marks the 28th consecutive year in which premium credits have been granted due to the strong financial condition of the Plan, thus further reducing the cost of this valuable protection for insured members and their families. Based on the continued favorable experience of the program, a second credit will also be given to these same insureds on the October 1, 1992, renewal, equal to 15% of the amount due. Contact: Administrator, SAA Group Insurance Program, 1255 23rd St., NW, Washington, DC, 20037; (800) 424-9883.

NEWS AND NOTES

We have not been able to include the regular, full-length *News and Notes* section in this *Bulletin* because of budgetary restrictions that limited this issue to eight pages. *News and Notes* will resume in the September-October *Bulletin*. We apologize to those whose submissions could not appear in this issue.
